Bible Lesson

Jesus is Baptized by John -In our lesson we learned that at the baptism of Jesus, God the Father said that Jesus was his Son and that he was pleased with him. We can rejoice that Jesus lived on earth and carried out God's plan to save us. Thank you Jesus for being willing to do all that needed to be done to save us!

We met with Pastor in the church and we got to see the baptismal font, the bowl of water and the shell used when baptizing children or adults at St. Pauls. We were able to ask questions and see everything up close. Thank you Pastor Proeber!

Our Week: Letter K

We are still having fun learning about pets during this month. During our small group centers we worked on making fancy pet collars using beads and pipe cleaners. We honed our math counting/subtracting skills as we rolled a die and then took that many dog bones out of our dish. We raced to see who could empty their bowl first.

Our color mixing station was very popular! We used different sized eye droppers to mix colored water. We started with blue, red and yellow and ended up with some beautiful colors like green, teal, magenta and orange etc.

Some of our favorite songs have been "You Are My Sunshine", and "Chili, Chili". We made use of the big parachute and our ribbon streamers as we played in the gym during those cold days.

Next week we will be starting something new with our Choice Time. The teacher will assign children to a particular center and pair them with another student or two - for the first 10 minutes. This will encourage the children to try something new and foster some interaction between different children, while still giving them a large chunk of time to pursue any other interests they may have that day.

God's Blessings on your Sunday!
Mrs. Melso
