### Bible Lesson

***Jesus Teaches Peter to Trust*** -In our lesson we learned that Jesus taught his disciples to trust him in times of trouble. Jesus walked on the water to get to his disciples when they needed him. Peter called out to Jesus to save him when he was sinking. Jesus pulled Peter up and quieted the wind and waves. Jesus was teaching his friends to trust in him. Jesus wants us to call to him when we have troubles too.

*"Call upon me in the day of trouble. I will deliver you." Psalm 50:15*

## Our Week: Letter Review

This may have been a short week, but we were able to learn a lot!

We worked on following directions as we completed a craft project together. We worked on our self-portraits for our portfolios this week. We have been talking about showing respect and kindness towards others and working on our problem solving skills. We are working on subitizing (identifying the number of items in a group of objects without having to count each item).

One of our favorite gym activities is using the scooter boards. We have to take turns since there aren't enough boards for everyone at the same time. This has been a great lesson in patience. 😊

We will be starting a new unit of study next week. We will be learning about God's wonderful universe as we study the planets, the moon and stars. We will be learning about astronauts and their work in space too. I introduced a couple of planet songs this week and the kids have been asking to hear them over and over.

God's Blessings on your Weekend!
